MEALS WITH A MEANING

Double Your Impact with “Share Your Meal”

Did you know that 1 in 9 Americans are food insecure, including over 11 million children?

Community often begins with a meal and we're proud to serve meals that set the stage for stronger, thriving communities and organizations. In partnership with the **Food Bank of Eastern and Central North Carolina**, our Share Your Meal program enables your organization to donate meals directly to those in need. To maximize the impact of your gift, Catering and the Raleigh Convention & Performing Arts Complex will match 100% of your contribution to double the number of meals donated.

When you choose to Share Your Meal, attendees will appreciate your organization's commitment to giving back in a memorable, impactful way. We hope this act of “paying it forward” inspires them to carry on the spirit of contributing, whether through your organization or in their home communities.

Here's how Share Your Meal works:

- Order additional meals (25 minimum) for one of your planned meal functions.
- No service charge will be applied on additional meals.
- Catering and the RCC will match your contribution.
- Meals will be packed up and distributed to the Food Bank of Eastern and Central North Carolina.
- At your event, share the good news with your attendees!

Please note that your total number of donated meals must be confirmed at least (7) days in advance to coordinate with the Food Bank of Eastern and Central North Carolina.

Sustainability

We are proud to offer locally grown produce from Ford's produce company. Ford's is the leading distributor for the Raleigh Farmers Market and offers a large variety of locally grown produce items. When menus call for local foods, catering proudly delivers this as a sustainable practice!

Whenever possible, catering donates leftover food products to local missions (such as the Interfaith Food Shuttle and Brown Bag Ministry) for use in their efforts to feed needy families and the unfortunate members of our community. Thousands of such individuals have been positively impacted due to our donations. In addition, Catering has an excellent relationship with the Food Bank of NC and offers training to those in need in the ways of the culinary arts. To date 100s of second chance individuals have been given the opportunity to be exposed to a variety of cooking techniques that will be very useful in job retention in the community.

Catering strives to comply with a 100% biodegradable, fully compostable mandate for all retail or concessions operations. These products include completely compostable cups, forks, spoons, cutlery and plates made from materials such as corn resin and sugar cane. The carbon footprint of these items is helpful to the environment as it provides richness to the earth. In the year 2010 alone, catering used approximately 185,220 eco-friendly products to serve its clients. All products are fully biodegradable in under 180 days, whereas plastic and styrofoam could take a lifetime.

Catering is fully green in their chemicals that are use for all dish-washing and cleaning efforts. From the final rinse capsules in our dish machine to the sanitizer used to keep our surfaces free from bacteria, catering is fully in check with their mission to be a leader in the green efforts of Raleigh.

During the normal cycle of disposal of goods, We take extreme care to recycle all materials that are deemed as such. Not only do we recycle all cans, boxes, green clear and brown glass, etc., we also compost leftover food remnants so that we do not overload the landfills with unnecessary trash. The effect of this has shown a great reduction of solid waste removed from the building in the mix of other trash.

On average 2.5 times per week our compost is picked up and taken to a local composting site (2000 lb max per pick up). Once fully composted, it is taken to local farms and replanted toward local NC Agriculture. Catering's composting efforts provides approximately 260,00 lbs or 130 tons of compost each year, which would otherwise be sitting in a landfill.

All cooking oil is placed in a container for pick up by a local grease company/contractor. Used cooking oils are then transformed into the ever-growing need for bio-diesel fuel. Grease traps are pumped which results in well over 25,000 gallons of liquid and solid waste being removed from the waste stream.

As a part of the NC 10 Percent Campaign, We have pledged to spend 10% of their existing food dollars locally. Our chefs are committed to sourcing 10 percent of more seasonal, local ingredients from NC farms.
